John –

I have attached EPA's formal response to the Trust's comments on ESD No. 3 for the Metal Bank Site. The response includes an attachment describing the sheet-pile wall's design. I expect the final ESD with the changes discussed in the attached letter will be issued by EPA sometime before the end of March.

I have also attached a copy of EPA's partial response to certain legal comments raised by the Utility Group. I will send you a copy of EPA's additional response to the Group's technical comments when it is available.

Please contact me if you have additional questions.

Very truly yours,

Bob
